

THETFORD
Loving leisure

From the makers of
Porta Potti®

CASSETTE TOILETS
THE ULTIMATE SANITARY SOLUTION

Comfortable, practical, and durable toilets - that is what Thetford stands for. Thetford is the inventor of the world-renowned original portable toilet, the *Porta Potti*®. Since then, we have become the world's leading manufacturer of mobile sanitary systems, toilet care products and accessories. For more than 50 years, Thetford has been designing and developing mobile solutions for the leisure market.

The Cassette Toilet

The lightweight and integrated sanitary system...

THE PERFECT MOBILE TOILET SOLUTION

The built-in Cassette Toilet consists of two parts: a permanently installed toilet and a removable waste-holding tank. A clever indicator lets you know when the tank needs to be emptied, and you can access and remove the tank through a small door (Service Door 3) on the outside of the vehicle. Choose from various models. From a Cassette Toilet with a bowl that can turn 90° to each side (C200/C263) to a waste-holding tank with wheels and an extendable handle. Its unique design ensures it fits in every modern caravan and motorhome interior.

ADVANTAGES

- Optimal use of space
- Highest level of seating comfort on the market
- Lightweight, high-quality, durable plastic
- Quiet yet powerful flushing system with full bowl coverage
- Homelike bowl in size and comfort
- 3 year warranty

EASY AND CONVENIENT EMPTYING

- Waste-holding tank indicates when it needs emptying
- Vent button for emptying without splashing
- Automatic pressure release vent prevents gas build-up, ensures splash-free tank opening
- Built-in rotating emptying spout

How to use the Thetford Cassette Toilet

PREPARE YOUR CASSETTE TOILET FOR DAILY USE BY FOLLOWING THE BELOW SIMPLE STEPS:

- 1 Open the access door on the outside of your caravan or motor home and remove the waste-holding tank.
- 2 Add the correct dosage of Thetford Toilet Care Product (e.g. **AQUA KEM BLUE** or **AQUA KEM GREEN**) and then add water through the rotating empty spout.
- 3 Models that have their own flush-water tank will also need to be filled. Depending on the model: open the service door, or open the water-filling door on the outside of the vehicle; add flush-water fluid (**AQUA RINSE PLUS**); and fill up the tank with water. Your toilet is now ready for use.
- 4 A level indicator lets you know when the waste-holding tank needs to be emptied.
- 5 A unique integrated rotating emptying spout and vent button ensures simple emptying into the nearest authorised waste dump.

KEEP YOUR TOILET RUNNING SMOOTHLY. USE THETFORD TOILET CARE PRODUCTS!

Always the perfect fit
