

CONVERSION INSTRUCTIONS

For the Thetford C2 Holding Tank, p/no. T21401-74

These instructions have been produced to assist owners of the Thetford C2 toilet convert the holding tank (p/no. T21401-74) from left hand to right hand configuration, and vice versa. No tools are required to complete this task, but please DO NOT USE ANY FORCE!

Thetford C2 Holding Tank in R/H Configuration

- In the first image, the triangles are aligned making for the valve to be locked to the body of the tank.
- The second image, twist the valve so as the triangles move to the left about an 1". The valve should come away fairly easy.
- In the third image, push the pour spout to the outside of the tank, this will release it from the body.

Dismantled Thetford C2 Holding Tank

Your tank should look similar to the above photo. Both the button and the spout should be now clear of the tank.

Thetford C2 Holding Tank in L/H Configuration

Congratulations! You have successfully converted your tank to Left Hand configuration. Please do the reversal of this procedure to achieve a Right Hand Configuration.
