Safety Instructions

Please observe the following instructions to ensure safety use:

- 01 DO NOT attempt to replace the internal battery with anything other than authorized replacement battery by yourself.
- 02 DO NOT operate in wet conditions, let unit dry completely before using.
- 03 Ensure proper ventilation while in use and do not obstruct fan openings on use. Inadequate ventilation may cause damage to the power station.
- 04 DO NOT stack anything on top of the power station in storage or in use, vibration and impact may lead to poor connection to hardware inside.
- 05 DO NOT insert foreign objects into outputs or ventilation holes.
- 06 DO NOT place the power station near heat sources like furnace or ambient heater.
- 07 The power station generates the same potentially lethal AC power as household wall outlet, please take carefully and keep children away from it.

ECO Mode:
Turn off the unit while the power of AC output is less than 10W in 4 hours for power saving.

How to operate on power station to turn ON/OFF ECO Mode\ and change the working frequency:

- 01 To Enter Settings Mode: Turn "AC" mode to the off position. Press "AC" and "DC" buttons at same time for 2 seconds to enter "Settings" mode.
- 02 To Change Frequency Setting: Once in "Settings" mode, press the "AC" button to switch frequency of the AC output ports to either 50 or 60 Hz depending on your location.
- 03 Eco Mode: Once in "Settings" mode, press the "DC" button to turn ON / OFF the ECO mode.
- 04 Exit Settings Mode: Long press the "AC" and "DC" buttons at the same time for 2 seconds to save and exit the settings mode.

Frequently Asked Questions

- 1 How do I clean for power station?
A Dry, non-abrasive cloths to wipe will be perfect. The power station is a versatile tool for various adventures, simple cleaning would be required from time to time to keep the unit in a good condition.
- 2 How to store my power station?
A Please place the power station in a dry and cool place at the recommended temperature. Do not expose the power station to humid environment. If you want to store it for a long time, please charge the battery to 80% every 6 months to extend the battery lifetime. Remind to turn off the unit before storing.
- 3 How do I know whether my device will work with the power station?
A Step1: You need to figure out the amount of power your devices require. Some research may be taken on internet search or the user guide of your device shall suffice.
Step 2: Check the rated power of certain port on power station. For example, if the AC output port generates 2000W of power and your device requires over 2000W for a extended period of time, the power station will turn itself off.
- 4 How to claim the warranty?
A Please place your after-sale requirement as the warranty card written to the platform where you order the product.
