

WILDTRAK

OFFROAD 12V KETTLE 350W USER MANUAL

OPERATION

Note: When in standby mode, the middle section of the digital display is always on.

1. Press the power button to enter the temperature setting mode. The default is 100°C.
2. Press the arrow down and up buttons to decrease and increase the temperature by 5°C each time. The minimum is 50°C and the maximum is 100°C.
3. Press the power button again to start heating. During heating, the two digits on the digital display cycle through illumination; Upon completion, they remain steadily lit.

SAFETY WARNING

Never use a 12V kettle if it's damaged. Always fill it with water before plugging it in, and never heat liquids other than water. Make sure the lid is closed securely before switching it on, and don't open it while boiling. Never overfill the kettle

- **Damaged Kettle:** Do not use the kettle if it is damaged in any way, including a damaged cord or plug.
- **Water Level:** Never plug the kettle in without water, and ensure you don't overfill it above the MAX mark or under the MIN mark. Overfilling can cause boiling water to spill, and insufficient water can damage the heating element.
- **Lid Security:** Always make sure the lid is fully closed before turning the kettle on, and do not open the lid while boiling.
- **Operating While Driving:** Never use the kettle while driving or when the vehicle is in motion.
- **Cooling Down:** Allow the kettle to cool completely before handling, cleaning, or disassembling it.
- **Heat Sources:** Avoid touching hot surfaces of the kettle during and after use.
- **Unplug After Use:** Unplug the kettle immediately after use and allow it to cool down.
- **Alternative Liquids:** Only heat water in the kettle, not other liquids or solids.

SPECIFICATIONS	
Operating Voltage	DC 12V
Power	350W
Input Connection	Anderson Plug
Tank Material	Food Grade PP
Tank Capacity	800mL
Starting Temperature	94-98°C
Maintaining Temperature	89-93°C
Temperature Control	50-100°C
Key Prompt Tone	Buzzer
Fuse Size	29A
Power Cord	10AWG I Cable: 60cm Red & Black branch wire
