

INTRODUCING THE NEW DOMETIC CI 42, CI 55 & CI 70 ICEBOXES

DOMETIC COOL ICE CI 42

Rotomoulded Icebox

Dometic Cool Ice iceboxes are perfect for any occasion where there is no power readily available. They will keep your ice frozen for days – up to ten days, depending on model usage and conditions. These robust iceboxes are ideal for continuous exposure to weather, especially on boats. The thick, refrigeration grade foam insulation and 'Labyrinth Seal Design' feature contribute to longer lasting ice. Its rotomoulded design means there's no seams where heat can get in or cold can escape! Cool Ice iceboxes are also extremely strong, durable and easy to clean. The CI iceboxes come with strong ergonomic polyethylene handles that double as useful tie down points to secure the box.

- Thick insulation and unique sealing design means ice lasts longer
- Hygienic and easy to clean with large diameter drain plug
- Optimised volume/weight ratio
- Strong, seamless, food grade polyethylene construction
- Durable, integrated hinges with stainless steel rods, strong rubber latches and stainless steel fixing screws
