DOMETIC CFF 20

PORTABLE FRIDGE OR FREEZER, 21 L

COMPACT AND PORTABLE DESIGN

The Dometic CFF 20 is remarkably lightweight, weighing in at less than 11 kg. Its compact size makes portability easier than ever and means that storage is never a problem, with the super-slim design taking up minimal space. Despite being a smaller model, the CFF 20 can store up to six standard 1.5 l bottles or 27 cans (375ml). Performance is another plus factor, with the ability to keep its interior as low as -18 °C. In addition, the digital display makes for easy temperature monitoring and adjustments. Very energy efficient, this portable fridge/freezer provides rapid cooling, and is the perfect choice for any outdoor adventurers looking for a high performance cooling option that's convenient to transport and store.

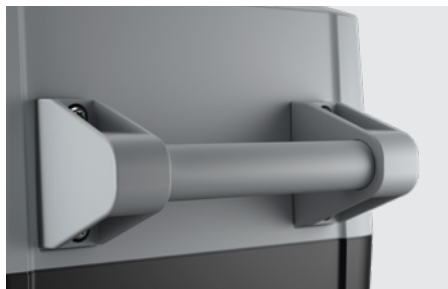

- Total volume of 21 l fits up to six standard 1.5 l bottles or 27 cans (375 ml)
- Energy efficient design provides rapid cooling, even in high outside temperatures
- Robust, lightweight and compact design ensures excellent portability
- Strong handles for carrying convenience, can also act as safety tie down points
- Can be set between +10 °C and -18 °C, with the ability to run at -18 °C up to 50°C below ambient temperature
- Removable lid with easy opening latch for convenient cleaning
- Digital temperature display for easy monitoring and adjustment
