

A FORCE TO BE RECKONED WITH.

EF1000iS

1 kW Silent Inverter Generator

Not only does it outperform the competition... but it's quieter, smaller and lighter.

Introducing the portable EF1000iS Silent Inverter Generator, delivering maximum output with minimum effort. This small, lightweight generator is powerful, portable and super sleek with lots of great features.

What can it run?

- camping fridge
- television
- lights
- Electric hand drill
- Fan
- Small Camping Toaster
- Laptop computer

Fitted with a newly designed muffler and air filter and Yamaha's advanced Noise Block™ sound reduction system. This generator is so quiet you can have a conversation without having to raise your voice. In fact this generator is so quiet, that you will probably not even notice that it is running.

EF1000iS

SPECIFICATION COMPARISON

Model	EF1000iS	COMPETITOR
Maximum Output	1 kW	1 kW
Rated Output	900 Watts	900 Watts
Operating Hours (1/4 Load)	12 hr	8 hr
Fuel Tank Capacity	2.5 L	2.1 L
Size (LxWxH)	450x240x380mm	451x242x379mm
Dry Weight	12.7 kg	13kg
Noise Level (1/4 Load / 7m)	47 dBA	52dBA (Eco on)
Noise Level (Full Load / 7m)	57 dBA	58 dBA
Starting System	Recoil	Recoil
Independent Fuel Tap	Yes	No

FEATURES AT A GLANCE

- **The Lightest Generators** in their class weighing under 13kg
- **USFS - Approved Spark Arrestor** eliminates errant sparks.
- **OHV Engine With Cast Iron Cylinder Liner** for longer life, powerful performance and excellent heat dissipation.
- **Smart Throttle™** varies engine speed based on load to improve fuel economy and reduce noise.
- **Inverter System with PWM** (Pulse Width Modulation) to safely run products with built-in microcomputers or microcomputer equipment / tools.
- **Petrol Petcock** helps prevent carburettor contamination during storage.
- **Oil Warning System** prevents engine damage.
- **Auto-Decompression System** reduces compression for effortless starting.
- **Electrical Overload Breaker** prevents generator damage in case of overload.
- **Controls Located On One Panel** for easy access.
- **DC Outlet** with 8 Amp / 12 Volt outlet for charging batteries (cables included).
- **Rubber Isolation Feet** for smooth operation and noise absorption.
- **Easily Detachable Side Panels** for easier serviceability.
- **Noise Block™ Sound Reduction System** for performance so quiet, you'll forget the generator is even running.
- **Multi-Polar Alternator** for the generation of high quality, high frequency 3-phase AC current. This means a much lighter and a more compact unit when compared to conventional 2-pole rotor type alternators.

*All information and specs are subject to change without notice. Product running capabilities are dependant on the particular products wattage usage, not all appliances can run at the same time.
