POWER PRODUCTS

DESCRIPTION

The Hyundai HY4000SE generator set with gasoline engine is designed to work in the most demanding conditions. It is a high performance tool suitable for use with delicate electronic devices. Its professional, compact design, robust with high resistance silencers and housings to reduce noise make this generator the perfect backup power source.

The 4000W Hyundai electric generator is designed for professional use and individuals who need a high-performance electric generator.

Applications include camping, jobs where there is no electricity, motorhomes, energy source for domestic home backup. In-built wheel kit facilitates ultimate portability

Gas upgrades and dual- fuel options available.

CONTROL PANEL
