

Peace of mind

**Safety for your family
when caravanning**

At last, a premium remote operated caravan and motorhome alarm that is both simple to fit and highly effective in operation.

MILENCO

Trusted world wide for over 25 years.

Fitting is simply attaching two wires to a 12v power source.

Located in the main living area of the leisure vehicle, simply activate the alarm with the supplied wireless remote for shock, movement and impact protection.

A Panic Feature is also built in, just press the lock button on the remote for 5 seconds and the siren will sound for 30 seconds and LED will flash.

Supplied with a CODE HOPPING transmitter, each time it is pressed it will randomly transmit a different code. This prevents thieves from using a 'code grabber' from copying and re-transmitting the code to disarm the alarm system.

This ultra high decibel alarm offers the ultimate theft protection and safety for you, your family and valuables.
