Quattro SeaGo

REMOVABLE FOR BOAT & MARINE USE

SGO130

For use on single and twin axles boat and trade trailers, the Quattro SeaGo is easily removed or fitted to your trailer in seconds. Easy to use, the powerful, quick-release SeaGo mover is the perfect trailer mover solution when versatility and confidence is key. After use, simply clip the movers off the unique, quick release bracket and store in a safe place.

- Easily removed to keep out of the water
- Powerful Quattro motor and precision gearbox
- Wide 130mm roller

Choose a Quattro® mover that's right for you!

Ideal for caravans, camper trailers, boat trailers, horse floats & custom made and general use trailers up to 3000kg & gradients up to 20%

Quattro Platinum

EGO500

The caravan mover of choice for large and twin axle Aussie vans, the Quattro Platinum's big 180mm wide rollers drive the wheels of the caravan directly, where 90% of the caravan's weight is located, rather than on the a-frame where only 10% of the van's weight is located. Strong, reliable, and robust – the Quattro Platinum incorporates Quattro technology – the intelligent modular system, featuring soft-start electronics that assures you'll be able to manoeuvre without sudden starts or the need for any manual labour.

- Wind-on auto-engage system
- Max power for moving big vans with ease
- Wider 180mm roller

Quattro Titanium

EGO400

Australia's best value caravan mover the Quattro Titanium, has been designed to save weight while using dual-wheel engagement meaning that this manual engagement caravan mover can be fully engaged from either side of the caravan or trailer. Easy to operate, lightweight & powerful, with a simple over-centre cam engager, the strong, soft-start Quattro Titanium is made of alloy construction and incorporates intelligent Quattro technology.

- Quick and easy to engage
- Over-centre cam management
- Wide 130mm roller width

Quattro QuicKEY

EQR130

Easily removed or fitted in seconds, the Quattro QuicKEY is the perfect trailer mover solution to keep the weight of your camper trailer or van to a minimum. The Quattro QuicKEY is an ultra-powerful mover that has been designed and engineered to mount to a 'quick release' bracket, meaning you can remove and store it during travel and quickly install it when you return home to assist in storing your caravan or trailer.

- Easily installed or removed when not in use
- Powerful motor and precision gearbox
- Wide 130mm roller
