

DOMETIC SKS101

SMALL SLIDE OUT KITCHEN

A revolution for the outdoor kitchen space

Extensive research and development were undertaken when designing the Dometic SKS101 Small Slide Out Kitchen, resulting in some seriously impressive features. None more impressive than the modular construction that is significantly lighter than other slide out kitchens in the market, weighing only 34 kg. Installation is simple, with a three-step installation method, and is compatible with all popular access doors. A range of accessories is available to maximise the functionality of the Dometic Small Slide Out Kitchen, including a drink holder, wind deflector, bottle opener, and utensil holder.

QUALITY FEATURES:

- Dedicated area for cooking, cleaning, and chopping
- Easy 3-step installation process
- Compatible with all popular access doors
- Lightweight aluminium construction
- Large dual side storage compartment
- Range of accessories available, including bottle opener, drink holder, chopping board, serving tray, and utensil holder

VERSATILE FUNCTIONALITY

Dedicated areas for cooking, cleaning, chopping and serving

RANGE OF ACCESSORIES AVAILABLE

Bottle opener, drink holder, chopping board, serving tray, and utensil holder available

LEIGHTWEIGHT ALUMINIUM CONSTRUCTION

Easy to slide out and avoids adding unnecessary weight to the RV
