3.	End Plate DS	1	11.	M8 Shake Proof Washer	2
4.	Spacer 3mm	2	12.	M8 Flat Washer	2
5.	M12x1.25x35 Bolt	2	13.	Hitch Collar Cover	1
6.	M12x1.25x45 Bolt	12	14.	Pin & Clip	1
7.	M12x1.25 Nut	8		D-Shackles	2
8.	M12 Shake Proof Washer	14		Compliance Sticker	1

Warning:

- This product is for towing purposes only and must only be loaded as shown in your vehicle Owners
- This towbar is NOT to be drilled, cut, welded or modified in any way.
- Check behind chassis rail and body panels before drilling to ensure no hazards are present

General:

- Before fitting this towbar read fitting instructions and check installation hardware is correct.
- Check that the towbar is suitable for the vehicle and be wary of any changes to the vehicle design that may conflict with the fitting of this towbar.
- After drilling, blow any filings clear, remove any swarf and treat exposed metal with a rust inhibitor.
- If this vehicle requires a bumper cut out, please check to make sure that you measure twice and check twice before cutting any panels as some bumper profiles can change. If you are not sure, then please ask your towbar supplier

Toyota Prado 120/150 (Spare under) – T7T728

Instructions	Tools	Torque Spec
Loosely secure both towbar end plates to the chassis.	Spanners, Sockets	NA
- Using 2x M12 Bolt, Flat and Shake Proof Washers into		
the captive nuts in the bottom of each chassis rail,		
through the rear most 2 holes in the end plate		
- Using 1x M8 Bolt, Flat and Shake Proof Washers into		
the captive nuts in the bottom of each chassis rail,		
through the forward most holes in the end plate		
Tighten the bolts to hold the end plates against the chassis		
rails. DO NOT tighten to torque spec.		

Step 2 Determine if Spacers are Required

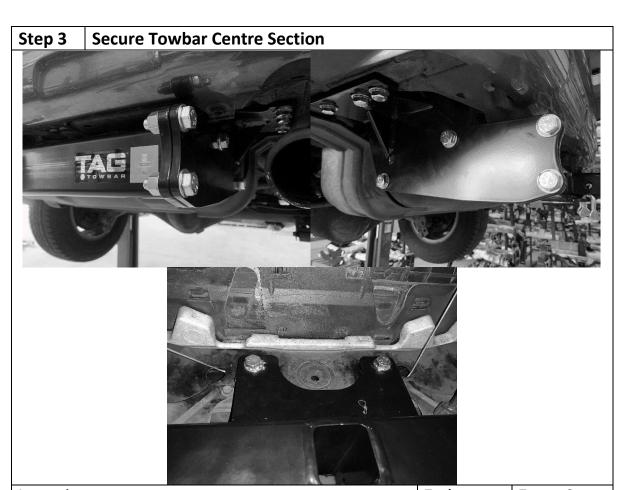

Instructions	Tools	Torque Spec
Position the Towbar centre section between the two end plates.	NA	NA
If there is more than approx. 3mm clearance between the parts on		
each side, then spacers will be required.		
If the clearance is less than this, spacers will not be required		
between the parts.		

T7T728 Rev 1

Toyota Prado 120/150 (Spare under) – T7T728

Instructions	Tools	Torque Spec
Secure Towbar Centre section to the end plates:	Spanner,	M12 = 100Nm
- Using 4x M12x45 Bolts, Shake Proof Washers, M12 Nuts, 8x	Sockets,	M10 = 60Nm
M12 Flat Washers, and 1x Spacer (if required) per side.	Torque	
Loosely secure the towbar centre section between the end	Wrench	
plates. Ensure centre section is right side up with the chain		
mount below the hitch receiver		
Secure centre section to the chassis:		
- Using 2x M12 Bolts, Flat and Shake Proof Washers, 2x Top		
Plates (1 on each bolt) between the towbar and chassis and		
2x nut on M12 Nut on wire (inside the chassis)		
When all hardware is in place, tighten all bolts (including those		
into the chassis rails) to the torque specified.		

Step 4	Apply door sticker
31ED 4	Apply door sticker

Toyota Prado 120/150 (Spare under) – T7T728

Instructions	Tools	Torque Spec
Apply Towbar info label to the inside of the	N/A	N/A
driver's side door Jam.
